

# Granddaddy, Wretched Songs

My heart it sits inside me  
It don't know we said good bye  
You see it's having trouble feeling good  
The way it did, the way it should  
I know it knows that something's wrong  
It hears me play these awful songs  
Its having trouble feeling good  
The way it did, the way it should

My heart it sits inside me  
It don't realizes we said goodbye  
It's having trouble feeling good  
The way it did the way it should  
I know it knows that something's wrong  
It hears me play these wretched songs  
Its having trouble feeling good  
The way it did, the way it should
