

# Granian, Hang Around

wait with me 'til morning rises  
as, you turn to go  
for just one moment, just one time  
this time let it show  
walk with me until this road ends or  
to where it leads  
would you care if it dropped you in  
the middle of nowhere

Can you hear me?  
Hang around your head  
Can you taste it?  
Hang around, your heaven's just ahead

come now, don't you lie  
you've had the needle already stuck in your eye  
more than you claim  
could you swear upon your honor that  
you never cared

Can you feel me?  
Hang around your head  
Can you taste it?  
Hang around just hang around and see

\*Dzap!\*

Can you hear me?  
Hang around your head  
Can you taste it?  
Hang around just hang around and see  
Can you feel it?  
Banging on your head, hang around.  
Can you taste it?  
Hang around, your heaven's just ahead.  
when it all comes crashing down on you, Hang around.  
when it all comes crashing down on you, Hang around.
