

# Granian, Try This

Standing on the corner  
Waiting for you to walk across my face  
Wait for me, it makes you laugh,  
To see me crumble Oh  
And I'll stay  
In hiding  
What insatiable I am, I am  
Try this and find what longer  
Time is never a factor  
To me I need to clear my head  
Of you  
Always on my own  
I always stumbling  
It all goes the way  
That you like it  
I hiding  
What insatiable I am, I am  
Try this and find what longer  
Time is never a factor  
To me I need to clear my head  
It beats me but never the stronger  
Find me the one that belongs here with me  
I need to clear my head  
To beat my head
