

Grant Lee Buffalo, The Shallow End

Where in the world have I been
I must have tripped on the way in
Diving into the shallow end
I must have gone and broke the skin

Hold me close and let me know
I'm not alone for once
Hold me close and tell me that
I never really was

Why on the earth could I not see
The cloud a hangin' over me
But I did a dance to make it rain
And it just overflowed the drains ooh

Hold me close and let me know
I'm not alone for once
Hold me close and tell me that
I never really was

Hold me close and let me know
I'm not alone for once
Hold me close and tell me that
I never really was

Ah ah ah
