

Gratitude, Dream, Again

Shes always sayin maybe well never know
I cant hear it for all my fears
Im too busy prayin wishin for what I should
Do or say to get my way
oh maybe well never know

Were on our way
its never done all of the joy and pain [2]
Dream again

The windows shuttered the big day never comes
The gift is giving what comes with it
Celebrate the birth at any age
Eat up grow up shut up measure up

Were on our way
its never done all of the joy and pain [2]
Dream again

Were on our way
its never done all of the joy and pain

Dream again
