Gratitude, Dream, Again

Shes always sayin maybe well never know I cant hear it for all my fears Im too busy prayin wishin for what I should Do or say to get my way oh maybe well never know

Were on our way its never done all of the joy and pain [2] Dream again

The windows shuttered the big day never comes The gift is giving what comes with it Celebrate the birth at any age Eat up grow up shut up measure up

Were on our way its never done all of the joy and pain [2] Dream again

Were on our way its never done all of the joy and pain

Dream again
