

# Grave Digger, Sacred Fire

My heart is pounding, full moon is rising  
My brain is crying, my eyes are staring  
I know what will happen to my soul  
Insanity will taken control

(Chorus:)  
Sacred fire  
Burning higher  
Sacred fire  
Is my desire

I feel the hunger, I feel the pain  
I lick the blood, that's running through your veins  
I bite your heart and lead you to death  
Only the sacred fire can save your breath

(Chorus:)  
Sacred fire  
Burning higher  
Sacred fire  
Is my desire
