

# Grave Digger, Starlight

Know the bright lights of Hollywood  
Movietowns, a phony world  
Seen a few nights of wonder,  
Seen a few nights of hell

Walkin' down the foggy streets of London-town  
Now I know it well  
Ev'ry light in the world is nothing  
To the light we know so well

Starlight, shining bright, starlight

Had a bit of life in high society  
The slums have seen me, too  
And the rich and poor would wonder,  
At somethin' old and new

See it ev'ry night goin' slowly 'round  
Can't you see it's true  
Out there ev'ry man is equal  
Way out there in the blue

Starlight, shining bright, starlight

Take it all the way all night long  
Twinkle on, you stars  
I feel my brain is blinded,  
I wonder what you are

Starlight, shining bright, starlight

Starlight...
