

# Grave Digger, The Power Of Metal

A long time ago  
When I started listen the metal  
My brother shouted at me  
How stupid I am  
A fist in my face  
Pushed me to the floor  
You never stopped  
And I hate you more and more

Watch out my friends  
The night never ends  
Watch the sun will rise  
There's a beast in my eyes

The power of metal  
The force to survive  
We will never surrender  
Till the day we will die  
We'll be born again  
Stronger than ever  
And never forgotten  
Forever and ever

Devil I will never forget  
Your malicious laugh  
And I swore by god  
That your day will come  
Don't bring me down  
You scum of the town  
Nothing can stop me  
On the way to the top

Watch out my friends  
The night never ends  
Watch the sun will rise  
There's a beast in my eyes

The power of metal  
The force to survive  
We will never surrender  
Till the day we will die  
We'll be born again  
Stronger than ever  
And never forgotten  
Forever and ever and ever

The power of metal  
The force to survive  
We will never surrender  
Till the day we will die  
We'll be born again  
Stronger than ever  
And never forgotten  
Forever and ever and ever and ever
