

# Graveworm, Suicide Code

Loose your life by manipulation  
Slept away by another frustration  
The simply truth I fear is here  
Dying in its sleep

They called my name, I bled for life  
Hear them cry again  
The blood has left me cold inside  
Time will tell the truth of life

It's time to die another way  
The way of suicide  
Slowly floating poison  
The perfect day for my final time

[Pre-Chorus]  
I kill for hate of your preacher and leaders  
The hopes and prays of all blindly believers  
Nothing betray a weakness  
Lost in the scars of sorrow

Die with their lies of justice and sureness  
Betrayed by the tyrants, destroyed by your master  
They will take your soul apart  
And let you burn in hell

[Chorus]  
Hate ... is what I feel  
Fear ... deep in me  
Death ... so cold and quiet  
Love ... will never die

Hate ... is what I feel  
Fear ... deep in me  
Death ... so cold and quiet  
Enter ... suicide code

[Pre-Chorus]

[Chorus]

As they all close their eyes  
The dark turned off the light  
They turned me into dead  
I learned to hate the people  
I never thought I would be there (again)  
A life joke, just senseless  
I feel my life goes away  
I fear as I saw this end
