

# Gravitonas & Roma Kenga, Everybody Dance

Dance for your life

I see it in your eyes  
I hear it when you breathe  
All deep inside you're burning,  
In pain and hurting to be free

Cause every time we touch  
I'm blinded by your vibe  
You've got it in your system feel the rhythm of the thrive

Everybody dance for your life  
Everybody moving, grooving grooving, it's your night.  
Everybody dance for your life  
Everybody moving, grooving grooving, it's your night.

The angels made me cry  
The devil made me dance  
My body goes electric biometric I'm in trance.

Cause every time we touch  
I'm blinded by your vibe  
You've got it in your system feel the rhythm of the thrive

Everybody dance for your life  
Everybody moving, grooving grooving, it's your night.  
Everybody dance for your life  
Everybody moving, grooving grooving, it's your night.

Everybody dance for your life  
Everybody moving, grooving grooving, it's your night.  
Everybody dance for your life  
Everybody moving, grooving grooving, it's your night.  
Everybody dance for your life  
Everybody moving, grooving grooving, it's your night.
