

Gravity Kills, Enemy

I'm the one who's so obscene
I'm the insect in your dream

Don't tell me you're in contact
Wasting you, can you see?
Don't tell me you're in contact
I can feel you live and breathe

I don't want to be your enemy
It's so hollow
I don't want to be your enemy
It's so hollow

Something's gone behind your eyes
In your head it's televised

Don't tell me I'm not human
Wasting you, can you see?
Don't tell me I'm not human
I can feel you live and breathe

I don't want to be your enemy
It's so hollow
I don't want to be your enemy
It's so hollow

Never wanna be
Never wanna be your enemy
Never wanna be
Never gonna be

Never wanna be
Never wanna be your enemy
Never wanna be
Never gonna be

I'm the one who's so obscene
Stitch me up so perfectly

Don't tell me you're in contact
Wasting you, can you see?
Don't tell me you're in contact
I can feel you live and breathe

I don't want to be your enemy
It's so hollow
I don't want to be your enemy

I don't want to be your enemy
It's so hollow
I don't want to be your enemy
It's so hollow

Never wanna be
Never wanna be your enemy
Never wanna be
Never gonna be

Never wanna be
Never wanna be your enemy
Never wanna be
Never gonna be
