

# Gravity Kills, Last

I'd tear my heart out for you  
Cross a mountain for you

I'd give myself up for your sin  
Open up I'm falling in

What I feel, what I give  
Take from me what I am  
It's the last day of you

I watch the last day of you  
A lot has passed I told you  
The world surrounding us has gone  
The world surrounding us goes on

What I feel, what I give  
Take from me what I am  
It's the last day of you

What I feel, what I give  
Take from me what I am  
It's the last day of you

Feel my hands upon you  
To feel my last touch of you  
Feel my breath across your skin  
Let go of all you hold within

What I feel, what I give  
Take from me what I am  
It's the last day of you
