

Great Big Sea, Feel It Turn

I had a dream I was moving forward
Floating gently to the sun
I've come to see my world rewarded
A new day has begun
A lost bird caught in mid migration
Far away to a foreign land
Offspring of a secret nation
A new day has begun

Chorus

I can see the earth below me
and I can
feel it turn

Fog lifts to reveal potential
For generations prophesized
Our growth to be exponential
Our promise finally realized

Chorus

Bridge

Feel it turn

Across the sky

The world it learns

So must I

Cut steel wired into water

Fixed link, circumnavigate

Old men see your sons and daughters

No longer, no longer hesitate

Chorus x2
