

# Great White, All Over Now

(Kendall, Niven, Lardie)

Woke up a little too rough

Looking like a quarter

when a dollar ain't enough

This room is just a mess

Nothing's ever working

and I couldn't care less

You know I ain't got no honey

because I ain't got no money.

Broke up

No good bye

Now it's down to slumming

and living high and dry

So don't go comin' around

no more bringin' me down

There's nothin' left, baby

It's all over now

That's why, can't cry.

Now you've got a ticket

It's all over now

So tough, all her jive

&quot;Need a lot of action just to keep it alive&quot;

Blue moon

Love in June

Nothin' but a promise

of trouble comin' soon

Ain't got a lover

who ain't got another

Woke up, just enough

Give you all I oughta

but it never was enough

So don't go comin' around

No more bringin' me down

There's nothin' left, baby

It's all over now

She done me wrong, it's all over town

Now she's gone, her turn to cry
