

# Great White, Hiway Nights

(Kendall, Russell, Niven, Lardie)

I know the spell you're under

I know it so well

How far? Well you may wonder

No way to tell

I've travelled miles from nowhere

Where sons never rise

Lookin' to find a meaning

Now open your eyes

Yeah

Been this way so long

Tomorrow's gone

See if the rhyme has reason

Chasing the wind

Look for a change of season

Somewhere to begin

Yeah

The freeway is my song

Now hiway nights

Red tail lights

Lead my love light love

Hiway nights

Freeway sights

To this eagle I belong

It rolls me on

How can I bring you lovin'

Out of the night

Is it a dream

To fade in the light

Yeah

The freeway is my song

Hiway nights

Red tail light

Lead my love light on

Hiway lights

Freeway sights

To this eagle I belong

Baby won't you start your motor

Baby won't you turn it over

Baby won't you drive me

Drive me through the night
