

# Great White, Is Anybody There?

(Williams, Russell)

Walking through the darkness  
A lonely man searchin' for a soul  
Look everywhere, no one around  
Something in the distance  
A memory reminds me of a time  
Look everywhere, no one around

And I'm lookin', reaching out again  
Trying to find someone alive

Do you hear me?  
Is anybody there

Standing in the darkness  
A trouble mind talking to myself  
So long alone, is it a dream  
Sidewalks cold and lonely  
The shadows of the night begin to fade  
Open my eyes, nobody's there

Still I'm looking, reaching out again  
Trying to find someone alive

Do you hear me?
