

# Great White, Lady Love

(Dewar, Trower)

Lady love, I heard a voice and it soothed me

Lady love, a simple tune and it moved me

Move me and sooth me

Leading me home

Too late for me now

Lady love

Lady love, a mans a fool to be leaving

Dreams of love, passing by like the seasons

Maybe I'll wake up

Oh tell me I will

Find you there waiting

Lady love

Lady love, I need some warm and tender

nights of love, sweet and fine to remember

Maybe tomorrow, your fever will find me

Waiting for me now

Lady love
