

# Great White, Lady Red Light

(Kendall, Russell, Niven, Lardie)

Deep in the night, alone in the dark  
I get a need for you  
In a hotel room I remember the way  
how we do what we do  
Too long without your touch  
Too long without your love  
My lady of lights  
I'm coming over for you  
I call you lover  
I call you friend  
but when I need another  
she's got a heart  
a heart to lend  
Lady Red Light, rock me tonight  
Baby's got a way to make it alright  
Lady Red Light, rock me tonight  
She really knows how to move me  
my Lady Red Light  
A shadow of night waiting in time  
Really no need to be cold and alone  
I've made up my mind who I need to see  
I call you lover  
I call you friend  
but when I need another  
she's got a heart  
a heart to lend  
Lady Red Light  
She knows how to move me
