

# Great White, Livin' In The U-S-A

(Lardie, Niven, Russell)

Well I used to work the graveyard  
Used to have to paint the stones  
Now I clean the farmyard  
Have to lick it clean alone

I got a wife and kid  
Sharin' an econoline  
We keep the sucker hid  
Underneath the Hollywood sign

You know I do all right  
Oh yea and it's ok  
I'd like to kill the light  
I'd love to sleep all day

Livin' in a dream  
Livin' in the U.S.A.  
Livin' in a dream  
Livin' in the U.S.A.

Then I used to have a penthouse  
Used to have a wife like you  
Now I keep the door locked  
Her attorney's tryin' to break in too

Everyone's aboard  
It's quite the social set  
They leave me polaroids  
Of everyone I never met

You know they do all right  
It's the All-American way  
They like to stay all night  
The love to drink all day

Livin' in a dream  
Livin' in the U.S.A.  
Livin' in a dream  
Livin' in the U.S.A.

Purple mountain majesty  
Crumble into the sea  
Spirit of the spacious skies  
Shine your grace on me

Livin' in a dream  
Livin' in the U.S.A.  
Livin' in a dream  
Livin' in the U.S.A.
