

# Great White, Old Rose Motel

(Lardie, Niven)

I see you bleed the feelings you close up  
I know the pain that you hide  
Oh baby please don't be no close out  
Stay with me through the night  
Needle Street ain't no answer  
Can't dream a heartache away  
Let the need be your master  
All of your dreams fade away  
Everything you want  
Everything you want  
Anything you want  
Anything you want  
You can find it right here  
Ah no don't go  
Down to the midnight motel  
Oh no so low  
Can't find no heaven in hell  
There's a silence that comes in the morning  
Leaves you screamin' at the wall  
As you sit there in your easy chair  
Chasin' demons at a crawl  
When you feel that you'll never find  
Somewhere y'll be safe to lie  
Just take a look over here  
Together we'll rise in a mornin' glory  
Anything you want  
Anything you want  
Everything you want  
Everything you want  
You can find it right here  
Don't go don't go  
Down to the Old Rose Motel  
Oh no don't go  
Down to the midnight hotel
