

Great White, On Your Knees

(Kendall, Russell, Holland, Black, Dokken)

I can take you up, I can tear you down

I'm a heat wave comin' at you

Takin' what I please, fallin' on your knees

You need me, yes you do.

From the moment I take over

You're gonna call me back for more

Down on your knees

Knockin' down your door, pull you to the floor

'Cause you need it, so bad

Takin' what I choose, never gonna lose

I love to drive the young girls wild

Gonna drive my love inside you

Gonna nail your ass to the floor

Down on your knees

Here I come now baby, kickin' down your door

Here I come now baby, pull you to the floor

Takin' what I choose girl, I'm never gonna lose

I love to drive the young girls wild

Drivin' my love inside of you

Down on your knees
