

Great White, The Original Queen Of Sheeba

(Brewster, Niven, Lardie)

I know you think that you're one bad mother
Got no time for a rock n' roll lover
You strut around like the original Queen of Sheeba
To I love you, you reply with c ya!
But this is how it's gonna be
You're gonna give your love to me
I know you won't come easily
But your gonna give your love to me
This is how it's gonnna be
You're gonna give your love to me
I know your life is runnin' free
But you're gonna give your love to me
You got that face for a part in a devil's dream
You got that shape from a deal with a voodoo fiend
One of a kind, there surely ain't no other
Oh don't you see we're made for one another
