

Green Apple Quick Step, Eating on All Fours

I see them when they go
To their hole museum
See them eating on all fours
Nostalgia rusting in
long forgot and never been
slippin' in and out of time
clutching to the reason why

rising: all the way but then I'm
falling: on my face again
rising: above society
falling: all the way

You know there's no cure
For what you've done

I see them when they go
In their old condition
See them croching on all fours
Nostalgia rusting in
long forgot and never been
Slippin' in and out of time
Clutching to the reason why
