

Green Apple Quick Step, T.V. Girl

The boy is good, so good for you with sandy hair, and sandal shoes

They call it good, Making no mistakes
And dye it black, she's a TV man
Pick him up and take him away

Vision heady
I do not have the strength to pick it up,
walk away

Reach right in
And see if you can touch him
Oh God no-the multi-color coded
Screen is there
So your hands can touch it
All alone, she's a TV Man

Pick him up and take him away
Vision heady
I do not have the strength to pick it up,
walk away

She's gonna have a good day
She don't care about the weather
She's gonna have a good day
She don't care about whatever
The reception's fine by me

She tune it in and
Turns her head around
Frame by frame
She can't find her favorite station
She shut her eyes and laces them together
All alone, she's a TV man

Vision heady
I do not have the strength to pick it up,
walk away
