

# Green Day, I Know Your Enemy

Do you know the enemy?  
Do you know your enemy?  
Well, gotta know the enemy [x3]

Violence is an energy  
Against the enemy  
Violence is an energy

Bringing on the fury  
The choir infantry  
Revolt against the honor to obey

Overthrow the effigy  
The vast majority  
We're burning down the bargain of control

Silence is the enemy  
Against your urgency  
So rally up the demons of your soul

Do you know the enemy?  
Do you know your enemy?  
Well, gotta know the enemy [x2]

The Insurgency will rise  
When the blood's been sacrificed  
Don't be blinded by the lies  
In your eyes  
Say!  
Violence is an energy  
From here to eternity  
Violence is an energy  
Silence is the enemy  
So gimme gimme revolution

Do you know the enemy?  
Do you know your enemy?  
Well, gotta know the enemy [x2]

Overthrow the effigy  
The vast majority  
We're burning down the bargain of control

Silence is the enemy  
Against your urgency  
So rally up the demons of your soul
