

Green Day, I Know Your Enemy

Do you know the enemy?
Do you know your enemy?
Well, gotta know the enemy [x3]

Violence is an energy
Against the enemy
Violence is an energy

Bringing on the fury
The choir infantry
Revolt against the honor to obey

Overthrow the effigy
The vast majority
We're burning down the bargain of control

Silence is the enemy
Against your urgency
So rally up the demons of your soul

Do you know the enemy?
Do you know your enemy?
Well, gotta know the enemy [x2]

The Insurgency will rise
When the blood's been sacrificed
Don't be blinded by the lies
In your eyes
Say!
Violence is an energy
From here to eternity
Violence is an energy
Silence is the enemy
So gimme gimme revolution

Do you know the enemy?
Do you know your enemy?
Well, gotta know the enemy [x2]

Overthrow the effigy
The vast majority
We're burning down the bargain of control

Silence is the enemy
Against your urgency
So rally up the demons of your soul
