Green Peter, Walkin' The Road

Now the cupboards are empty But baby you dont care This way that Im living Now that youre not here Im walkin the road But theres a long long way to go My socks need mending Theyre so full of holes Take a look at my trousers And man, how it shows Im walkin the road But theres a long long way to go I sit at the table Since I got the news Im so full of cigarettes And Im drunk with the blues Im walkin the road But theres a long long way to go I gave you my loving I gave you my car Now I gotta keep moving To the next backstreet bar Im walkin the road But theres a long long way to go
