

# Greenwheel, Disappear

You don't see  
You never have, you never will  
What do you believe  
These images are unforgiving  
Jealousy always running through your veins  
You cannot breathe  
Here's your witness everything's not right  
No everything's not right  
(Chorus)  
Where did you go  
You forgot about all you've left behind  
It's all on the table  
Still you wonder why, yea you wonder why  
You can't hurt any more  
Your emotions just can't be seen in light  
You're lost in here, lost in here  
You just disappear  
You just disappear

You deny the pain that overcomes deep inside  
You've kept it there too long  
Grayest skies, answers bleeding through  
Sunlight, cast its shadows over all

(Chorus)  
No everything's not right  
No everything's not right  
(Chorus)  
No everything's not right  
No everything's not right  
(You're just lost in here x3)  
You just disappear
