

# Greenwheel, Sustain You

So far away not knowing how to handle the distance between  
Avoiding situations that will show that this is not the same  
(chorus)

Try to see through my window

I can't but I will

Sustain you as long as I can bear the thought of humbly keeping

Silence is my answer

I will remain here quietly seething

As the crowd moves in roaring to carry me away

I've always kept this push from shoving the edge closer now

It's true enough

I have nothing left to say

(chorus)

I will sustain you

I can't but i will

Oh I can't but i will

(Chorus)

Away. away

I will sustain you

I will sustain you

I will remain here quietly seething

As the crowd moves in roaring to carry me away
