Greg Laswell, Come Undone

Sleep my love while I come undone And I'll brace myself for when you're done Sweet dreams my love Take them all Take them all While I Absorb you and what you've done What you've done

You never gave it wind You never let me in

You shine like winter under sun Under sun You kill me with christmas And I hope you find the day that you came undone While I Absorb you and what you've done What you've done

You never gave it wind You never let me in

Whisper till the coffee comes Whisper till you come undone Whisper till the film starts Whisper till I fall apart
