

# Greg Raposo, Every Summer

(Na na na na na)

Somewhere in the distance  
The radio's beckoning me on I feel I'm right back there with you again  
I wonder if your listening  
Does it make you think about the time we ran out laughing in the summer rain

I'm caught up in the Monday blues  
I can barely take my mind off of you  
It's just a silly song about love  
And here comes the chorus

(CHORUS)

Every summer has a song  
That reminds me of the good times that passed  
If only they could last forever  
And when they play it on the radio  
It takes me back to the last time we were dancing somewhere  
The DJ playing it all night long  
Every summer has a song

So we're by the ocean  
When I held you in my arms you swore you never knew a love like this before  
Watching the horizon  
We wondered if the sun could ever shine forever, smiling on us evermore

And then the band beat on and on  
And we laughed until the break of dawn  
It's just a silly song about love  
And here comes the chorus

(CHORUS)

There's a picture of the past  
A memory of you  
To make the moment, last

(CHORUS)

Will you remember me?
