

# Greg Raposo, My Life

Living live with your eyes closed  
Expect to fall and it's gonna hurt  
With my pain I've opened my eyes  
My tough luck has made me realize that...

(chorus)

This is my fight  
To get up and stand in the light  
Here I am  
Taking a stand  
Here I am  
This is my life, my life

And as time slowly takes me away  
It's hurts just to watch as it pulls me  
Each and everyday  
So now's the time to turn my head on you  
and to take control  
And do what I want to do cause

(chorus)

This is my fight  
To get up and stand in the light  
Here I am  
Taking a stand  
Here I am  
This is my life, my life

If you want to know who I am  
Well there's too many of me to know  
But you can hear me, I know you will  
If you can feel this the way that I do  
Then you'll love it the way that I do

(chorus 2x)

This is my fight  
To get up and stand in the light  
Here I am  
Taking a stand  
Here I am  
This is my life, my life

This is my fight  
To get up and stand in the light  
Here I am  
Taking a stand  
Here I am  
This is my life, my life
