

Greta Van Fleet, The Falling Sky

Utwór 'The Falling Sky' z albumu 'Starcatcher' od Greta Van Fleet (premiera 21 lipca 2023r.)

I've been handed a quite demanding and hardly standing lie to tell
Life is sorted and never thwarted it's just supported by being well

I don't want to loose this time
I just want to let it pass

Holding up the falling sky
Holding up the falling sky

Here's the trouble with seeing double it's torn down rubble that's left behind

You can live with a pointless forte that silly board game that you would know

I don't want to loose this time
I just want to let it pass

Holding up the falling sky
Holding up the falling sky

(Solo)

Holding up the falling sky
Holding up the falling sky
