

# Gretchen Wilson, Come To Bed

Sometimes we fight  
'Bout who's wrong and right  
And stay up all night  
And sometimes we drink  
And say hurtful things  
That we don't mean

[Pre Chorus]

Yeah, we're both screamin'  
But nobody's listenin'  
Let's take this madness  
Out of the kitchen

[Chorus]

Come to bed  
Let's just lay down  
There's just one way  
We're gonna work this out  
Forget what I did  
Forget what you said  
Oh, darlin' (darlin')  
Come to bed

Well, I love you  
You know I do  
And you love me, too  
So let's just stop  
Remember what we've got  
Before it all gets lost

[Pre Chorus]

Just take my hand  
It's been way too long  
Turn out the lights  
And turn each other on

[Chorus]

Come to bed  
Let's just lay down  
There's just one way  
We're gonna work this out  
Forget what I did  
Forget what you said  
Oh, darlin' (darlin')  
Come to bed

[Bridge]

And let's put aside our pride  
For feelin's for tonight  
In the mornin' we'll see things  
In a different light

[Tag Chorus]

Just come to bed  
Let's just lay down  
There's just one way  
We're gonna work it out  
Forget what I did

Forget what you said  
Oh, darlin' (darlin')  
Come to bed
