

Grey Daze, Saturation (Strange Love)

And this is what I said
And this is what I said
And this is what I said
And this is what I said

Let me tell you 'bout myself
Some say I've got a bad attitude
Some say I've got nothing else
Some say I have a lot to prove

Let me tell you 'bout myself
I'll do whatever you want
I'll do what you ask me to
But I won't do what you tell me to do
No

And this is what I said
And this is what I said
And this is what I said
And this is what I said

Strange
Love
Be gone
Be gone

Let me tell you 'bout myself
Some say I got a long way to go
Some say I'm going straight down
Some say there's nowhere to go
And this is what I say
