

# Grey Skies Fallen, This Burden I Bear

Bring to me your heart divine,  
Swept ashore by constant winds.  
Swift and harsh, they crash against me,  
I plead for closure, it is time.  
Leaves silent in their decent,  
A frigid branch left bare and weak.  
The brutal winter approaches soon,  
Leaving behind a tired man...  
The sky so dark,  
Reeks of your cries.  
Tear out my eyes,  
Now I'm blind.  
Remove my tongue,  
Before I taste (the bitter residue)...  
Entwined in this web I lay,  
It's so dark.  
Devastated by your disregard,  
I fall...
