

Grimes, Oblivion

Another walk about, after dark
Is right here with you, cause I'm gonna beg your name
Tell me that behind you always tell me that you never have a clue
And now I'm left behind, all the time
I will wait forever, always looking straight
Thinking how ? all the other way
See you on a dark night
I see you on a dark night, uhh, aaa /3x

And now another ? I would have
You could help me out
It's hard to understand
Cause when you ready ?
And I would give to be, ?to me
But I will wait forever, I need someone now
Too look into my eyes and tell me girl you know you gotta watch your health
Too look into my eyes and tell me
La la la la la la, la la la la la la
Too look into my eyes and tell me
La la la la la la, la la la la la la /2x

I see you on a dark night, uhh, aaa / 12x
