

# Grinspoon, Bad Funk Stripe

I'm a small portion of the sampled origin  
Seems like your kickin it back to the policemen  
I need a breath of fresh air  
So we can clear the air  
Importance for your labels

Kick the flipper on the goldmark twilight  
Kick the flipper so i can see my light  
I screamed hooray for flashing bad funk stripe  
Screamed hooray for flashing bad funk stripe

Bad funk stripe

Bad vibes from the slide tribe seems  
You got your wires crossed when you tried to fix the toasted  
But the boasting felt like karate  
Rolled with the punches and a blow up vercace  
We really need gravel rash  
Step on the gas  
Give all the hash  
Rollin up, pretty smashed  
Step on the gas we all need gravel

I screamed hooray  
For i'm flashing back funk stripe  
Bad funk stripe

Well there's a crazy situation on the seventh floor  
I'm in an argument forever with the lady in the down stairs

Left operator lift me up better  
I know you do it well  
Cos i've seen you when your in the rain  
And your pain won't go back  
Cos i know it

You try everything to tell me that you know it  
You know, i know, you know  
A bad funk stripe
