

Grinspoon, Boredom

What you say
Will go away
Nothing celebrated for the keep sake
I'm inclined
To ride away and then walk alone.
Special day
and i'm ok
You have forgotten what i've told you
If you find
another way then let me know.

CHORUS

Like boredom when you're down town
Misfortune and then you
Process bent
and all inside
Above the houses down beside
You been licking all
If you would ever fell apart
As you relate
A perfect place
Cause he does not really remind you
Of your fate
That awful day, that valentine

CHORUS

Like boredom when you're down town
Misfortune and then..

HEY

Can you live another love in your vein

SPACE

When the heart's ready to fly away

WAIT

Well can you give this mother fucker a break

SPACE, WAIT

Like boredom when you're down town
Misfortune and then you
I'm feeling close to clouds now
It's like feeling close to you.
