

Grinspoon, Sickfest

You can't try and sink your thoughts into my brain
Contradict, you've always been too lame
Guilt has always found you hiding away
Wallow in your pity

You make sick
I make you
Every time I see you I break you
You make sick
I make you
Every time I see you I break you
You make sick
I make you
Every time I see you I break you
You make sick
I make you
Every time I see you I break you

Train your mind to believe
All that you say
Stab yourself so he will turn in today today
Ben and Frank, bliss isn't what you prayed
Don't you ever say what matters

You make sick
I make you
Every time I see you I break you
You make sick
I make you
Every time I see you I break you
You make sick
I make you
Every time I see you I break you
You make sick
I make you
Every time I see you I break you

Break you down, yeah i'm breaking you down
Your broken down

Crave me!

You can't try and sink your thoughts into my brain
Contradict, you've always been too lame
Guilt has always found you hiding away
Wallow in your pity

You make sick
I make you
Every time I see you I break you
You make sick
I make you
Every time I see you I break you
You make sick
I make you
Every time I see you I break you
You make sick
I make you
Every time I see you I break you
You make sick
I make you
Every time I see you I break you
