

# Grinspoon, Sickfest

You can't try and sink your thoughts into my brain  
Contradict, you've always been too lame  
Guilt has always found you hiding away  
Wallow in your pity

You make sick  
I make you  
Every time I see you I break you  
You make sick  
I make you  
Every time I see you I break you  
You make sick  
I make you  
Every time I see you I break you  
You make sick  
I make you  
Every time I see you I break you

Train your mind to believe  
All that you say  
Stab yourself so he will turn in today today  
Ben and Frank, bliss isn't what you prayed  
Don't you ever say what matters

You make sick  
I make you  
Every time I see you I break you  
You make sick  
I make you  
Every time I see you I break you  
You make sick  
I make you  
Every time I see you I break you  
You make sick  
I make you  
Every time I see you I break you

Break you down, yeah i'm breaking you down  
Your broken down

Crave me!

You can't try and sink your thoughts into my brain  
Contradict, you've always been too lame  
Guilt has always found you hiding away  
Wallow in your pity

You make sick  
I make you  
Every time I see you I break you  
You make sick  
I make you  
Every time I see you I break you  
You make sick  
I make you  
Every time I see you I break you  
You make sick  
I make you  
Every time I see you I break you  
You make sick  
I make you  
Every time I see you I break you
