

# Grits, Fly Away

The love we share with all  
My heartbeat brings resolve  
Let's drive a nation to this  
Bring Peace, spread love for all  
I wish that we could fly away,  
I gonna take you somewhere far away  
Come get with it, Oh so sick with it

I asked my momma  
How was it back then What you mean back then?  
You know back when you were all alone with a bun in the oven  
But you grew up in a house Good dad, good lovin

Different parallel different dynamics  
You subjecate life can't cram it  
Can't cry over spoiled milk done damage  
Momma ain't cryin yet manned up I managed.

Rich Momma, sing your praises from the rooftop  
Anyone lay a finger on you Imma pull back the rooftop  
Say rooftop turned green with rage  
Folks smashed til their hearts stopped

I'm a fool agianst violence  
I'm a fool for you to the fools on trial  
And the reason I required a true spirit that true in bed  
Fed my mind good bread which lead to a great life

Now i ain't the sentamental cat  
Who just pencil in crap for profit  
To cater to simple saps who want  
That mushy rap nahh I just owe you that

Respect and regards to how I was raised thanks and praise  
Outweights any amount that I could ever repay  
My heart and thoughts with you everyday  
I put that on my momma's life

The love we share with all  
My heartbeat brings resolve  
Let's drive a nation to this  
Bring Peace, spread love for all  
I wish that we could fly away,  
I gonna take you somewhere far away  
Come get with it, Oh so sick with it

Raised in the church stayed in the dirt  
Prayed for the grace that I stay on the earth  
Got that still played til it hurt  
Matter fact did dirt in the church

Have a first scene now I got needs  
Now I got bills nothing about the fee  
Baby momma drama church callin me  
So I holla back try to get me

Sat down with a dad of a friend  
Voice sounded like God in my head  
Said, 'Son you too young to lose  
And you livin to fast on the short fuse

Man God got his hand on your life  
So he gave you the gift and the mic  
And he made you to speak to the soul  
Of the young and the old in a world so cold (so cold)

So remember these words I told ya (told ya)  
Look close at the fork in the road (road)  
You only got one life to live  
Don't gain it all and still lose your soul (lose your soul)  
Let's Go

I wish that we could fly away,  
I gonna take you somewhere far away  
Lemme know what's up what's up don't you wanna go?
