

Grits, Here We Go (Liquid Beats Remix)

we are gonna play the cut right now
and it's gonna be a very very big hit...

He feel it She feel it We feel it
Hey so round and round we go
He feel it She feel it We feel it
Ah here we go
he gon' get up she gon' get up we gon' get up
lockin' down the joint til the playa haters shut up
take it to the outer limits flawless with no gimmicks imitate but cant get it
Ah here we go

my brain pattern skip a gigawatt
no more room in the pan i cook up rhymes in a bigger pot
on a roll, what you think I got
tricks up my sleeve you wont believe
my story lead to a thicker plot
words leap off the pages hop on stages,
we crazy need to be locked in cages
raah you feel it
yeah im light skinned vanilla,
comin atcha like a pack of gorillas
whole planet gone ape
understand from afar nashville to the lone star state
relate indicator instilled in me by men greater
this is where you belong strong you gon' be great
flaunt clout with a scream and a shout cast out doubt
fast like a gun blast drawn out
the sounds in leaps and bounds flush out clowns creeps and hounds
foxes and wolves in sheeps gowns

He feel it She feel it We feel it
Hey so round and round we go
He feel it She feel it We feel it
Ah here we go
he gon' get up she gon' get up we gon' get up
lockin' down the joint til the playa haters shut up
take it to the outer limits flawless with no gimmicks imitate but cant get it
Ah here we go

i was born in the cold
moved to the heat
got used to the flame
now i spit it on beat
i was chose in the womb
groomed by christ
with a gift to raise souls from the tomb
please don't assume
we aint tryna take the slot
blow the spot
worldwide still parta the plot
everybody talkin bout changinthe game
but everything i hear yall soundin the same
from the beats to the videos
clothes and looks
same concept for your flows and hook
see these round here they can raise the dead
so come on everybody now bob your head
yall need to heed these words from the wise
rhymes so meaty like jambalaya
got truth for hire
can you stand the fire
to see you come alive that's my desire now

He feel it She feel it We feel it
Hey so round and round we go
He feel it She feel it We feel it
Ah here we go
he gon' get up she gon' get up we gon' get up
lockin' down the joint til the playa haters shut up
take it to the outer limits flawless with no gimmicks imitate but cant get it
Ah boy looka here

Have you ever heard a dead man talk before
You ever seen a dead man walk before
You ever heard dead man lock the flow
Like these before
We raised the qou
Now my time frame flip make time change
You knew another record would hit
Explode and make your brains hang
Peep my language of my dialect
Circulate like a boomerang
Man what did you expect

He feel it She feel it We feel it
Hey so round and round we go
He feel it She feel it We feel it
Ah here we go
he gon' get up she gon' get up we gon' get up
lockin' down the joint til the playa haters shut up
take it to the outer limits flawless with no gimmicks imitate but cant get it
Ah here we go
