

Grits, You Said

remember when you told me it would never end
We would be together like stimpy and ren
Guess it was a lie
Cause now you is dead

Spit it on a love affair
that ofen make us lose touch
insanity we ???? it
try to pry it from a fool clutch
travel down the road
it came to forks many times
????????????????????????????
????????????????????????????
like spacel when mixxed
aplied to cracks and bricks
an inataquit fix
for a momment on it it sticks
you were all I wanted
adramul enough
built a castel in my mind
now the house is haunted
I remain secure
with motives I say is pure
Its a shame we can't endure
Cause the fame take me on tour
trust me I know what happends
????????????????????????????
we can't wrestle life
we gotta get it before it gets way

She was my high school sweatty
everything I thought I needed
hazel eyes long hair
butter cream porterican
but it seems I was thinkin bout the beauty of her featuers
