

# Gromee, One Last Time (feat. Jesper Jensen)

give me a drink  
I need it now  
I want a place with no time  
don't we feel it  
and letting you in

I'm in the room when you used to sleep  
no, it's my fault we don't speak  
don't we feel it  
and letting you in

it's like you still lay with me  
whispers all the thing that make me go mad  
make me go mad  
I might be drunk  
but I just stay so tempted  
wondering what you're doing tonight

if we could do this  
just one more time  
nobody does it like you do  
take me back /2x  
I need to forget ya  
would you do it  
just one more time  
just for one night  
no one has to know  
I can't get it off my mind  
I promise to let go

I promise to let go

oh, no, this night's so messed up  
thanking how it left us  
I can't help it  
no, I can't help it

imagine..  
didn't happen for nothing  
I can't help it  
no, I can't help it

it's like you still lay with me  
whispers all the thing that make me go mad  
make me go mad  
I might be drunk  
but I just stay so tempted  
wondering what you're doing tonight

if we could do this  
just one more time  
nobody does it like you do  
take me back /2x  
I need to forget ya  
would you do it  
just one more time  
just for one night  
no one has to know  
I can't get it off my mind  
I promise to let go

I promise to let go  
I need to forget ya
