

# Gromee, Send Me Your Love (feat. ANTONIA)

Hi, can I call you?  
Can I call you mine?  
Can I be the sun kissing your skin?

I can be your  
I can be your ocean  
Be the wave that makes you smile

Now send me your love  
Hot like a fire  
If you can remember how we used to feel

Send me your love  
From now till forever  
I don't want to feel cold in September

Now send me your love  
Hot like a fire  
If you can remember how we used to feel

Send me your love  
From now till forever  
I don't want to feel cold in September

Baby, can you hear my?  
Can you hear my heart beat  
Synchronized deeply with yours

Ain't nobody  
Ain't nobody like you  
Fire meets gasoline

Send me your love  
From now till forever  
I don't want to feel cold in September

Now send me your love  
Hot like a fire  
If you can remember how we used to feel

Send me your love  
From now till forever  
I don't want to feel cold in September
