

# Gromee x Jesper Jensen, Sweet Emotions

i found you before the stroke went in  
slap my face and grab my back ahead  
how your body's going in the moon line  
mean it's boy I wanna be a man

try to figure out  
try to figure out  
what's the sun be on your side  
try to figure out  
try to figure out  
why you're dancing all alone  
try to figure out

what's the sun be on your side  
try to figure out

why you're dancing all alone  
dancing all alone  
tonight

Sweet Emotions

you said: I have no time for conversation  
I don't care what you're all about

what's the sun be on your side  
try to figure out
