

# Groove Coverage, Little June

She was out with her friends almost every night,  
she was young she had fun till the morninglight.

Never took always gave, that was new for us,  
cause love will never die ...

Little June is living for tomorrow,  
taken away on a beautiful day.

Little June is swallowing her sorrow,  
she closed her eyes as she left for the skies.

Little June is living for tomorrow,  
every day she just wanted to stay.

Little June is swallowing her sorrow,  
now that she's gone we all have to move on.

When she left we all cried, it could not be true,  
by the hands of a man that she barely knew.

Little June like the moon shining down on us,  
cause love will never die ...

Little June is living for tomorrow,  
taken away on a beautiful day.

Little June is swallowing her sorrow,  
she closed her eyes as she left for the skies.

Little June is living for tomorrow,  
every day she just wanted to stay.

Little June is swallowing her sorrow,  
now that she's gone we all have to move on
