

# Groove Coverage, Only Love

[Verse 1]

My friends do always tell me that they see you drop the top,  
got a girl in every city flirting all around the clock.

Oh baby's catching Junglefever Junglefever's catching you,  
shouldn't try to tell me lies rather come out with the blues.

I got a feeling baby I lose control you cut my heart in peaces you crush my soul.  
I got a passion baby I lose control you rip my heart in peaces you crush my soul.

[Verse 2]

My man is creeping slowly day by day he's knocking boots,  
magnatising all the ladys, will I pick my gun and shoot.

Oh babys playing with my warning with my heart you shouldn't play,  
cause I'm living for the moment so I'm leaving you today.

[Refrain]

You can go you can walk you can run you can hide away,  
then you'll hear me say, it's only love.

All the time that I cry that I die that I lost in you,  
I'd always trust in you, it's only love.

[Bridge]

When I feel so bad when I feel so sad I'm longing,  
at the time we had the time I can't forget
